

Abstract

Disclosed is a compound of formula I:

[wherein B is a nucleobase selected from the group consisting of adenine, guanine, cytosine, uracil and hypoxanthine],
a compound of formula II:

[wherein B' is a nucleobase selected from the group consisting of adenine, guanine, cytosine, thymine, uracil and hypoxanthine],

a method for synthesizing these nucleoside triphosphates, and
a process for producing an oligonucleotide using these
nucleoside triphosphates.
